REQUIRED FORMAT FOR PSYCHOSEXUAL EVALUATION REPORTS

I. Preliminary Statement
   (See SOMB Guidelines)

II. Identifying Information
    Name, birth date, age, evaluation date, criminal case number, etc.

III. Synopsis
    a. Risk level – Low/Moderate/High
    b. Amenability for treatment
    c. Pertinent information for court consideration supported in body of report, including what lead to conclusions about risk level and amenability for treatment

IV. Referral Information and Nature of Evaluation
    a. How referred for evaluation
    b. Structure of the evaluation
    c. Applicable statutes

V. Confidentiality
    a. Evaluation confidentiality and how explained to examinee
    b. Notice and Consent for Psychosexual Evaluation

VI. Sources of Information
    a. List of tests and measures
    b. Collateral information, interviews, other relevant sources

VII. Mental Status Examination and Psychological Symptoms
    a. Standard mental status information and relevant psychological symptoms
    b. Appearance and behavior observation

VIII. Background, Criminal and Social History
    a. Developmental history
    b. Interpersonal relationships
    c. Medical history
    d. Mental health history

IX. Description of Current Offense(s)

X. Sexual History Behavior
    a. Sexual development, early experiences
    b. History of age-appropriate, consensual, non-coercive sexual relationships
    c. History of being subjected to non-consensual or coercive sexual behaviors
    d. Historical and current sexual interests, fantasies, practices/behaviors
    e. Sexual functioning, sexual dysfunction
    f. Use of sexually oriented materials or services
    g. Prior sexual offender treatment
    h. Intent related to treatment
    i. Offense-related sexual arousal, interests and preferences
    j. Evidence or characteristics of paraphilias
    k. History of sexually abusive behaviors, documented and unreported
    l. Number of victims identified through credible records or sources
    m. Current and previous victim-related variables
    n. Contextual elements of sexually abusive behaviors
    o. Attitudes supportive of sexually abusive behavior
    p. Demonstrated level of insight, self-disclosure, denial, and minimization relative to sexually abusive behavior
XI. Psychological Test Results (Personality and mood, and Intellectual functioning measures are required; remaining categories are recommended but at the discretion of the evaluator)
   a. Personality and mood – must use at least one of
      i. MMPI-2
      ii. MCMI-III
      iii. PAI
   b. Intellectual functioning – must use one of
      i. Shipley (preferred)
      ii. WAIS-IV (preferred)
      iii. Other validated assessment tool
   c. Psychopathic tendencies – (recommended but optional) such as
      i. PPI-R
      ii. PCL-R (Hare)
      iii. Other validated assessment tool
   d. Substance abuse – (recommended but optional) such as
      i. SASSI-3
      ii. GAIN-I (core)
      iii. Other validated assessment tool
   e. Additional optional testing, but not exclusive to
      i. STAXI-2 (anger)
      ii. HCR-20
      iii. SVR-20
      iv. LSI-R

XII. Current DSM Diagnosis

XIII. Specialized Risk Assessment Measures and Measures of Sexual Behavior
   a. Must include
      i. STATIC-99 or STATIC-99R (unless inappropriate for case)
      ii. STABLE 2007
      iii. MSI-II
   b. Additional optional measures, but not exclusive to
      i. ACUTE 2007
      ii. SORAG
      iii. VASOR
      iv. Viewing time measure (e.g. Abel screen)
      v. Phallometric testing

XIV. Risk Variables
   a. Static Variables
   b. Dynamic Variables
   c. Protective Variables
   d. Attach Sex Offender Static and Dynamic Risk Variables Checklist

XV. Risk Level
   a. Estimated classification – Low/Moderate/High

XVI. Potential for Future Harm (optional but encouraged)
   a. Level of awareness or insight into potential harm/impact on the victim(s) and others
   b. Most likely victim type and potential harm they could experience based on literature

XVII. Resources for Community Protection, Amenability for Treatment, and Recommended Treatment Focus
   a. Resources for community protection
   b. Amenability for intervention and treatment
   c. Advice regarding treatment
   d. Advice regarding supervision

XVIII. Additional Suggestions for Management (optional)
SEX OFFENDER STATIC AND DYNAMIC RISK VARIABLES CHECKLIST

STATIC RISK VARIABLES

___ Offender's age under 35
___ History of paraphilia(s)
___ History of impulsiveness -or- recklessness
___ History of major mental illness (including mood disorder -or- personality disorder -or- psychotic disorder)
___ History of substance abuse or dependency as an adolescent
___ History of substance abuse or dependency as an adult
___ Having ever had a sexual victim that was not related
___ Having ever had a sexual victim that was a stranger (knew less than 24 hours)
___ Having ever had a sexual victim that was a male
___ Having one prior conviction for a sexual offense -or- one to two prior charges for sexual offenses with no convictions
___ Having two to three prior convictions for sexual offenses -or- three to five prior charges for sexual offenses with no convictions
___ Having four or more prior convictions for sexual offenses -or- six or more prior charges for sexual offenses with no convictions
___ History of high density of sexual offending
___ History of a conviction for a non-contact sexual offense
___ History of multiple sexual offense behaviors and types
___ History of grooming a sexual victim
___ History of childhood aggression or violence problems prior to age of 15
___ History of aggression or violence at and/or after age 15 (including adulthood)
___ Victim being physically injured in the course of the sexual offense being committed
___ Use of a weapon or threat of death occurring during the sexual offense
___ History of family of origin instability associated with the offender not living with parents until age 16
___ History of family of origin instability associated with family members having mental illness and/or substance abuse issues
